P1

BRIGHTON ENERGY COOPERATIVE

Attitudes to electric cars, solar PV and Community Energy

⊕ PAGE TITLE

Brighton Energy Cooperative is a community energy company that installs solar PV on schools and businesses in the South East of England. The building owner gets low cost, renewable electricity and we invest our profits in building more renewables, sharing with our members and funding local projects through our Community Fund.

We are now adding electric vehicle charging points to our portfolio so we can help the growth of cleaner transport. Drivers can charge up with locally generated, green electricity.

We'd love to hear the opinions of the communities around our current and future solar and charge point sites. This should take about 5-10 minutes to complete. More information about our electric vehicle charge points can be found [here](#).

* 1. Do you already own an electric vehicle, or have access to one (e.g. work vehicle)?

Yes

No

- This year
- Within the next 2 years
- Within the next 5 years
- In more than 5 years time
- When I replace my current vehicle, but I don't know when that will be

* 4. Here are some reasons why people may not have bought or leased an electric vehicle yet - how important are these reasons to you? ☺ ☹

	Very important	Important	Moderately important	Slightly important	Unimportant
Price of the vehicle	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
How far I can travel between charging	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Availability of charging at home	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Not enough public charging points	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I don't know enough about them	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Size of vehicles available	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Availability or long waiting list for the vehicle I want	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I've not needed to replace my current vehicle yet	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Knowing where to charge	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Time spent charging	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Driving experience	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Car aesthetics - the look & feel, brand etc	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
I want a second hand model	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

If there are other reasons why you haven't bought or leased an electric vehicle to date, please add them here

* 6. EV charging stations are currently being installed in public car parks, on the road sides, work places, petrol stations and on private driveways. Here are some factors people feel are important when choosing where to charge their electric vehicle - how important are they to you?

	Very important	Important	Moderately important	Slightly important	Unimportant
Location: it's somewhere convenient e.g. at home, work, or somewhere I'm visiting	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Location: it's at a petrol station	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Price: it's cheaper than the competition	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Price: it's roughly the same as the competition	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Price: it stays fairly constant, doesn't change day to day	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Green: the electricity is from a renewable source e.g. solar	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Community: the charge point brings other benefits to the local community	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Source: the electricity is locally produced	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Charging speed: it's quick - charge up & go	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

If there are other things you consider important when choosing a location for charging (now or in the future), please tell us here:

PAGE TITLE

* 7. There are, and will be in the future, many places to charge your electric vehicle. Thinking about these locations, how often would you use them to charge your vehicle? If some are not relevant, then select not applicable.
I would charge.....

	Most often (several times a week)	Often (several times a month)	Occasionally (every couple of months)	Rarely (once or twice a year)	Never	Not applicable
At home - on my drive or designated parking space	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
At home - on the street outside	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
Near home - within 1/2 mile	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
In my local community e.g. community centre, local parking	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
At work	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
At places I visit e.g. supermarket, places of interest	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
At a public car park	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
At an existing petrol station	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>
At a designated EV charging station	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>	<input type="radio"/>

If you think there are any other locations that charge points will, or should be installed, please tell us here
